Sales Taxes:	\$9,820,343.53		
Total Taxes:	\$255,309.00		

Comments

Program and Service Information

Community Health Education: General

Report services that are not billed on an inpatient or outpatient hospital bill, or services that are offered at a reduced charge to the indigent, medically underserved, and the broader community. Provide the number of programs, people served and/or number of visits, and financial loss for each service. "Financial loss" is the cost of providing the service that is not offset by any revenue or funding source. Report each program that your organization provides as a community benefit only once on the survey in the category that best describes the program. Do not include loss leaders or marketing/promotional activities. If you are a partner in a service, report only your share of the net financial loss.

General - Report Programs that provide information to reduce health risks and promote wellness, but do not provide clinical or diagnostic services.

Description	Events	Persons	Financial Loss
